

Fishing

Wilderness Island truly offers some of the most amazing fishing anywhere in the world. And to have all that from your own private island is a fisherman's dream!

With so many different varieties of fish the action is offshore and off the beach, in and around the island. Where we go, what we go for and when we go is UP TO YOU and we can make the arrangements on the day. We offer you individually tailored tours, as well as set itineraries of one to four day adventures. Catering for small groups, the tours are very personalised. All our tours are personally organised and guided.

It could be an all day safari to hook a sailfish, or up the mangroves for some mangrove jack, or off the beach for some giant herring. And that's just the first day! Want to see what others have hooked? Check out the Catches of the Day in the Image Gallery.
